Lagos, NG

## INTRODUCTION

Highly motivated and skilled front-end development intern passionate about creating exceptional user experiences. I am seeking an opportunity to apply and expand my knowledge in front-end development within a dynamic and collaborative environment. I am eager to enhance my skills in modern front-end frameworks and libraries such as React or Angular. Through my strong attention to detail and ability to translate design concepts into functional and responsive interfaces, I strive to contribute to the success of projects and make a positive impact on the end users.

## PROFESSIONAL EXPERIENCE

March 2023 – August 2023

### **Front-end Engineer (Intern) CODAR INSTITUTE**

- Collaborated with a team of frontend developers and designers to develop responsive web applications using HTML, CSS, and JavaScript.
- Assisted in translating design mockups and wireframes into pixel-perfect, interactive web pages.
- Contributed to the documentation of frontend development processes and procedures for future reference.

- Collaborated on projects utilizing version control systems, such as Git, to manage codebase efficiently.
- Assisted in the optimization of website performance by analyzing and improving page load times and overall speed.
- Actively participated in team meetings, brainstorming sessions, and code reviews to contribute to the overall project success.

July 2022 – November 2022

### **ALX Software Engineering Programme**

- Developed practical skills in frontend and backend development, working with technologies such as HTML, CSS, and JavaScript.
- Collaborated with a diverse group of fellow interns on real-world software projects, applying agile methodologies and best practices.
- Completed training modules and assessments to enhance technical skills and gain a deeper understanding of software engineering concepts.
- Engaged in continuous learning and professional development through workshops, seminars, and mentorship sessions.
- Actively contributed to team discussions, sharing ideas and insights to solve technical challenges and improve project outcomes.
- Contributed to the development of web applications from inception to deployment, gaining hands-on experience in the software development life cycle.
- Participated in code reviews, providing feedback and suggestions to improve code quality, readability, and maintainability.
- Engaged in continuous learning, exploring new technologies and frameworks to stay updated with the evolving software engineering landscape.
- Completed individual and team projects, demonstrating the ability to work independently and in a collaborative setting.
- Conducted thorough testing and debugging of code to ensure functionality, performance, and security.

March 2014 – April 2015

## **Field Network Engineer (Intern) ARCELOR NETWORKS**

- Assisted senior network engineers in the installation, configuration, and maintenance of network infrastructure for various clients.
- Supported the deployment of networking equipment, including routers, switches, and wireless access points.
- Assisted in troubleshooting network issues and implementing necessary solutions to ensure network stability and performance.
- Documented network configurations, procedures, and troubleshooting steps for future reference.
- Demonstrated strong problem-solving skills and the ability to adapt to changing environments and technologies.
- Assisted in generating network performance reports and participated in capacity planning activities.
- Collaborated with team members to perform network maintenance activities, such as firmware upgrades and patch installations.
- Documented network configurations, changes, and troubleshooting procedures for future reference.
- Participated in team meetings and training sessions to expand knowledge of network technologies and best practices.

## **EDUCATION**

- **The Federal Polytechnic Ilaro Ogun State NG**, National Diploma in Computer science. (September 2012 - September 2014).
- **The Federal University of Agriculture Abeokuta, Ogun NG**, BSc in Computer Science. (March 2014 – September 2018).
